The Quick Municipality Protection Profile aims to provide a snapshot of the basic demographics, absorptive capacity and general situation of host municipalities affected by the Marawi Crisis. This may be used as a starting point for information and analysis that can help humanitarian agencies, policy makers and other stakeholders concerning their emergency response. The information reported in the Quick Municipality Profile has been received from members of the Protection Cluster responding to the crisis. Consequently, the information will be updated on a regular basis as more information is received from members. Although efforts are made to verify the data, the Protection Cluster takes no responsibility for the incompleteness or inaccuracy of the information. The information provided in this Municipality Profile does not necessarily reflect the views of UNHCR or any individual member of the Protection Cluster.
