INCIDENT BACKGROUND

On 9 November 2019 at around 04:40 hour, the 33rd Infantry Battalion of the Philippine Army have launched a mortar shelling in Sitio Guguko, Barangay Tukanalipao, Mamasapano targeting the elements of the Bangsamoro Islamic Freedom Fighters, a faction with allegiance with the Islamic State group. An hour following the shelling, the government troops engage a fierce skirmish with the armed group that resulted to forced displacement of local population and scores of civilian livestock.

CURRENT SITUATION

A separate assessment was conducted by the Community and Family Services International (CFSI) and Mangungaya Mindanao Inc. (MMI) immediately after the fighting was reported. Based on the reports from the Municipal Disaster Risk Reduction Management Officers (MDRRMO) of the affected municipalities, there are a total of 2,860 families (14,297 persons) – there are 2,431 families (12,152 persons) forced to flee in Mamasapano Municipality and 429 families (2,145 persons) in Shariff Saydona Mustapha Municipality. The Local Government Unit of Mamasapano and the Rapid Emergency Action on Emergency Incidences (READi) of the newly established Bangsamoro Autonomous Region in Muslim Mindanao (BARMM) have extended relief assistance to the displaced families. Two days after the fighting, there are several families who have return to their habitual residences.

As of the reporting period, there are a total of 520 families (2,600 persons) remain displaced from Barangay Tukanalapilao and Barangay Pimbalkan, all in Mamasapano Municipality. The displaced families have share dwellings with their relatives residing along the Libutan-Tukanalapilao highway.

PROTECTION ISSUES AND RESPONSE

### Health

Children, elders and IDPs with existing health related issues prior to the displacement need medical assistance for common ailments such as flu, fever, diarrhoea, and cough.

Need for medical intervention have been referred to the local partners of Oxfam for possible assistance.

### Education

The education of IDP children have been disrupted as a result of displacement.

Refer the case to education agency.

### Land and Property

Based on reports from local monitors there are livestock such as 20 cows and 3 goats hit by bullets from the parties involved in the fighting. Undetermined number of casualties among the conflicting parties has been reported seen by the local population after the fierce fighting.

IDPs have reported the case to the local officials for appropriate action

Continuous protection monitoring and follow-up on actions taken to the complaints of the livestock owners.

There are complaints from the displaced families that their household belonging including food stocks were looted by unidentified group.

IDPs have reported the case to the local officials for appropriate action

Continuous protection monitoring and follow-up on actions taken to the complaints on lost household belongings and properties.

The IDP Protection Assessment Form

The IDP Protection Assessment Form aims to provide a starting point for information and analysis that can help humanitarian agencies, policy makers and other stakeholders concerning instances of forced displacement (including population, resettlement, integration). The number of people displaced/affected may differ from the number in need of humanitarian assistance. To the extent possible, the terminology used in the Dashboard reflects the UN Guiding Principles on Internal Displacement and other sources of international law and practice. The information reported in the IDP Protection Assessment Forms has been received from members of the Protection Cluster across Mindanao. Consequently, unreported cases of forced displacement and solutions are not reflected. Updates will be provided as and when more information is received from members. Although efforts are made to verify the data, the Protection Cluster takes no responsibility for the incompleteness or inaccuracy of the information. At the end of every month, this data is compiled and distributed through the 'Protection Dashboard'. The information provided in this IDP Assessment Report does not necessarily reflect the views of UNHCR or any individual member of the Protection Cluster.

The Protection Cluster

In the Philippines, the protection cluster has been established by the National Disaster Coordinating Council (NDCC) Circular No 5 series of 10 May 2007 (Institutionalizing Cluster Approach in Philippine Disaster System). Given the fact that Mindanao did not witness major emergencies since Marawi siege, the protection cluster was not convened since mid-2017. Instead a protection working group was established in April 2019 to attend to protection needs of displaced families in BARMM.

Protection Working Group for Bangsamoro Autonomous region in Muslim Mindanao (BARMM)

In April 2019, PWG for BARMM was established under the leadership of Ministry of Social Services, co-led by UNHCR. The Protection Working Group (PWG), based in Cotabato City, is being convened to support the provision of protection interventions and services to these disaster- and conflict-affected communities. The main objectives of BARMM PWG is to strengthen coordination among relevant actors with a protection role (from regional down to municipal and community level) in order to: (a) ensure timely prevention of and response to protection issues in the BARMM-region; and (b) facilitate timely information-sharing among these actors, in support of effective planning and implementation. The PWG meets every 2 months with members of Government agencies with protection roles, Relevant LGUs, UN agencies, Local and international NGOs & CSOs.

For more information, please visit the Protection Cluster website [http://www.protectioncluster.org/philippines/] or e-mail us at PHICOPRC@unhcr.org.
