As of the 31st of December, a total number of 104,817 families (484,443 individuals) are currently displaced in Mindanao. Those displaced can be classified into three main groups, depending on the length of displacement:

Group A: 33,695 families (139,539 individuals) displaced within the month;

Group B: 44,548 families (214,540 individuals) remain displaced, and have been protractedly displaced for more than 30 days but less than 180 days; and

Group C: 26,574 families (130,364 individuals) remain displaced and have been protractedly displaced for more than 180 days. Those classified under Group C are concentrated in five main areas:

- Zamboanga City: 524 families (2,620 individuals) still displaced due to Zamboanga siege in September 2013.
- Northern Mindanao: 788 families (3,892 individuals) still displaced due to Severe Tropical Storm Vinta (Temblin) in December 2017.
- Eastern Mindanao: 535 families (2,259 individuals) still displaced due to armed conflict between Armed Forces of the Philippines (AFP) and New People’s Army (NPA) since February 2018.
- Central Mindanao and BARMM Provinces: 1,497 families (6,823 individuals) still displaced due to crime and violence since January 2019.

In December 2019, a total number of 33,565 families (109,060 individuals) were displaced in Mindanao due to earthquake.

**DISPLACEMENT OVERVIEW**

**DISPLACEMENT IN DECEMBER**

33,695 Families

139,539 Individuals

70 Persons dead

610 Persons injured

**CIVILIAN CASUALTIES**

From January to December 2019

**LOCATIONS**

Breakdown of displaced individuals by region
GROUP A: DISPLACEMENT IN DECEMBER

1 Earthquake in Davao del Sur:
On 15 December, a 6.9-magnitude earthquake shook the province of Davao del Sur and surrounding areas. The epicentre of the earthquake was located 9 kilometres northwest of Matanao, Davao del Sur at a depth of 3 kilometres. The municipalities of Matanao and Magsaysay in Davao del Sur recorded the strongest intensity, with surrounding municipalities experiencing destructive shaking. According to the Pacific Disaster Center (PDC), an estimated 4.4 million people or 830,000 households live in towns that sustained strong tremors.

Some of the affected communities were already burdened by the October earthquakes. The latest earthquake is the fourth quake above magnitude 6 in the last two months to hit this part of Mindanao, all within a radius of 12km: 6.3-magnitude on 16 October; 6.6 on 29 October; 6.5 on 31 October and the most recent 6.9 on 15 December.

The 15 December earthquake has compounded previous displacement as well as damage to homes, schools and infrastructure from the October earthquakes. Many of those displaced by the most recent event currently camp in makeshift tents in open spaces near their homes or in evacuation centres, usually open areas near their barangay (village) hall or church, adding to displaced communities who lost their homes and have been staying in tents and evacuation centres since October. The physiological trauma of the affected population is aggravated by continuous aftershocks.

As of 22 December, more than 1,000 aftershocks have been recorded in parts of Davao del Sur. The Philippine Institute of Volcanology and Seismology (PHILVOCS) stated the December earthquake may have been caused by the move of the Tangbulan Fault running along Davao del Sur and is not directly related to the October earthquakes, attributed to the movements in the Cotabato fault system. PHILVOCS expects more tremors as the Tangbulan fault continues to move.

According to the National Disaster Risk Reduction and Management Council (NDRRMC), almost 81,600 families (394,000 individuals) are affected in 218 barangays in Region XI and XII. As of 07 January, 10,374 families (39,112 individuals) are taking shelter in 107 evacuation centres, while 23,321 families (100,427 individuals) families are staying in homebased settings. In total, 13 were killed and over 200 people injured by collapsing structures, falling debris, cardiac arrest, and other earthquake-related traumas.
GROUP B: PROTRACTED DISPLACEMENT
Displacement of more than 30 days

The boundaries and names shown and the designations used on this map do not imply official endorsement or acceptance by the United Nations.

MAGUINDANAO:

SPMS municipalities: On 09 November, a fire fight erupted between the Armed Forces of the Philippines (AFP) and the Bangsamoro Islamic Freedom Fighters (BIFF) in Barangays Tuankanalipa and Pimbalkan, all in Mamasapano Municipality. Ground and aerial assaults have resulted to the forcible displacement of undetermined number of families who have sought refuge in neighboring communities in Proper Tuankanalipa and Linantangan.

On On 21 November, there have been reports of heavy mortar shelling targeting the interior communities of the municipalities of Shariff Saydona Mustapha, Mamasapano and Datu Salibu, and Shariff Aguak, all in Maguindanao. Civilians residing in the affected communities have been forced to flee, the numbers of which are yet to be confirmed, and they have sought refuge among relatives in neighboring communities. There have been reports of heightened military presence in the area which has caused fear and forced people to flee in order to avoid being caught in a possible cross fire between government troops and local armed groups. There have also been reports of farm animals hit by bullets. UNHCR has been coordinating with local partners to assess the needs of the displaced communities in the said municipalities.

Guindulungan: On 11 November, around noon time, a firefight has erupted between warring groups from Barangay Macasampen, Guindulungan and Barangay Kitapok, Datu Saudi Ampatuan. More than 100 families have been forced to flee in Sitios Tumagontong and Tantawan in Barangay Macasampen.

The displaced families are being hosted by their relatives in adjacent communities in Barangay Tambunan, Barangay Kalumamis, and Sitio Proper of Barangay Macasampen. There have been reports that four (4) houses along the boundaries of Sitio Tumagontong and Sitio Tantawan in Barangay Macasampen were burned by one of the groups involved in the rido.

---

The Displacement Dashboard provides information on the number of IDPs and the number of families affected by conflicts and natural disasters. The data is compiled from various sources, including government agencies, local authorities, and humanitarian organizations. The information is updated regularly to reflect the evolving situation in the region.
Datu Montawal: On 14 October 2019, armed clashes erupted between two private parties that are members of the Moro Islamic Liberation Front-Bangsamoro Islamic Armed Forces (MILF-BIAF) and have been engaged in a longstanding personal dispute. Residents of Barangay Dungguan, Datu Montawal municipality and Barangay Inug-ug, Pagalungan municipality – both in the province of Maguindanao – were forced to flee due to the clashes. Tension began to escalate a few days before the armed clashes, which then prompted community leaders to advise the people to pre-emptively evacuate to safer areas.

South Upi: A firefight erupted in Barangay Kuya, South Upi municipality on 28 July 2019 due to a long standing land dispute in the area. Approximately 112 families (560 individuals) were forced to flee their homes and have sought refuge at barangay hall and gymnasium of the said barangay.

The displaced populations are Teduray, indigenous peoples residing in Sitios Nuling, Dakeluan, Walow, Ideng, and Furo Wagey. On 31 July, members of the barangay council facilitated an assembly with the affected population to discuss issues and concerns. Farming activities of the IDPs have been disrupted, which has prevented them from harvesting activities. Some have reported lost and/or destroyed properties, and loss of farm animals. There are also reported cases of common ailments such as flu, cough and fever.

The barangay and municipal LGUs have provided food to the IDPs. The AFP and the PNP have deployed troops in displacement sites so that the IDPs can visit and harvest their crops for a week, beginning on 01 August. However, the IDPs have said that this is not enough time to complete their harvesting activities, which presents a problem since farming is their main source of income.

COTABATO PROVINCE AND DAVAO DEL SUR

On 16 October 2019 at 07:37 PM, a 6.3 magnitude earthquake jolted the municipality of Tulunan, North Cotabato, with a tectonic origin and a depth of focus of 8 km. It was also felt in neighboring municipalities surrounding Tulunan.

About two weeks later, on October 29, an earthquake was again felt in the municipality of Tulunan, North Cotabato, this time registering a 6.6 magnitude. The earthquake was felt in neighboring provinces such as Maguindanao and Davao del Sur.

Among those displaced by the earthquake, 9,461 families (43,334 individuals) have taken temporary shelter in seventy-one (71) evacuation centers, while 24,318 families (117,379 individuals) are currently staying with their relatives and/or friends. There are 47,476 damaged houses; of which, 25,795 are totally damaged and 21,681 are partially damaged.

A total of 71,969 families (352,938 individuals) were affected by the earthquake incident in 379 barangays in Regions XI and XII, as of 29 December 2019.

These figures are based on the DROMIC Report #51 issued on 29 December by the Department of Social Welfare and Development.

3 NORTH COTABATO

Midsayap: On 23 October 2019, an encounter between alleged rebels and the AFP transpired in Barangay Tumbras, Midsayap, North Cotabato which caused displacement of families and individuals in the area.

The Commission on Human Rights – Region 12 has said that it will assist the families of the seven who were killed in the encounter, four of whom were minors, as they build a case against state forces, citing violations of International Humanitarian Law and human rights principles.

Pikit: On 25 July, around 100 families (estimated 500 individuals) were forcibly displaced from Barangay Kabasalan in Pikit, North Cotabato due to airstrikes and ground assaults conducted by the AFP, also against alleged members of the BITF. One woman was reportedly killed, while her husband and grandson were injured during AFP operations along the border of Maguindanao and Cotabato Province. Their house in Sitio Butilen in the said barangay was hit during the airstrike. Validation of the exact number of the IDPs is currently being conducted by the Municipal Disaster Risk Reduction Office (MDRRRMO) of Pikit.

MUNICIPALITY FAMILIES INDIVIDUALS
PIKIT 100 500
BASILAN

Lamitan City: Five families (25 individuals) remain displaced since August 2019 due to a family feud in Barangay Lebbuh, Lamitan City. The feud began in 2017 due to marital conflict, which then resulted to killings of family members on both sides. Those involved in the said killings are believed to be members of armed groups in Basilan, with a recorded history of killings and retaliation. In 2018, members of the Coordinating Council on Cessation of Hostilities – Moro Islamic Liberation Front (CCCH-MILF) who are based in Basilan attempted to resolve the issue through peaceful dialogue. While both families agreed to settle the issue through traditional methods, the agreement was not sustained.

SULTAN KUDARAT

Lutayan: A total of 160 families (800 individuals) remain displaced. On 23 July, heavy rains caused flash floods and a landslide which displaced 38 families (190 individuals) in Barangay Blinkong and 182 families (910 individuals) in Barangay Tananzang – adjacent barangays both in Lutayan Municipality. The displaced families are temporarily staying in evacuation centers set up in the chapel, school, and barangay hall, while others are hosted by their relatives.

TAWI-TAWI

Bongao: On 13 September, Tropical Storm Marilyn caused a storm surge to hit the coastal barangays of Bongao, Tawi-tawi, particularly the barangays of Tubig Tanah, Simandagit, and Lamion. Out of the 152 families that were initially displaced by the surge, 63 have already returned to their places of origin.

The 89 families that remain displaced are currently staying in evacuation sites while awaiting reconstruction of their damaged houses. Based on the assessment of local government units and local partners, 82 houses were totally damaged while 70 were partially damaged.

During interviews on-site, families identified immediate needs such as food supplies, clothing, hygiene kits for women and children, and housing materials for the reconstruction of their houses.

In late August, Barangays Tubig Tanah and Lamion were also hit by a storm surge, this time caused by the southwest monsoon’s effect on Tropical Storm Jenny. The storm surge damaged and washed-out about 16 houses in Barangay Lamion and five (5) houses in Barangay Tubig-Tanah, displacing 21 families (109 individuals), IDPs sought refuge among their relatives and built temporary shelters on a concrete road connecting Lamion and Tubig Tanah, due to the absence of an evacuation center.

GROUP C: PROTRACTED DISPLACEMENT
Displacement of more than 180 days

The displaced populations are Teduray, indigenous groups, and Datu Salibu, and Shariff Aguak, all in Maguindanao. Civilians residing in the affected communities have been killed and/or friends. There are 474 families (117,379 individuals) are currently staying with their relatives in Patikul. The Comission on Human Rights – Region 12 has said that it will assist the families of the seven who were killed in an encounter, four of whom were minors, as they build a boardwalks both in the transitory sites and in some permanent housing sites, and installation of street lights in the permanent housing sites. There is also a call among some of the IDPs for re-assessment/validation to verify eligibility of IDPs for housing assistance, as some legitimate IDPs were inadvertently not included in the official "tagged" list.

1. **ZAMBOANGA DISPLACEMENT**
Displaced since September 2013

Around 524 families (approximately 2,620 individuals) remain displaced within the transitory sites while others are still living with their relatives. Of the total figure, 74 families (370 individuals) are inside the four (4) Transitory Sites, while 450 families (approximately 2,250 individuals) are Home-Based.

KEY CHALLENGES FOR IDPs IN ZAMBOANGA
Among the key issues and recommendations identified by the IDPs during a series of consultations facilitated by UNHCR in 2018, in partnership with the CSWDO and local NGOs, are the following:

1. **Shelters** – Pending issues regarding access to permanent shelters include alleged unauthorized occupation of some housing units intended for IDP beneficiaries, pending repair of bunkhouses and boardwalks both in the transitory sites and in some permanent housing sites, and installation of street lights in the permanent housing sites. There is also a call among some of the IDPs for re-assessment/validation to verify eligibility of IDPs for housing assistance, as some legitimate IDPs were inadvertently not included in the official "tagged" list.
2. **Water, sanitation, and hygiene (WASH)** – Latrines in the transitory sites are in need of repair. In some cases, they have become unusable and desludging is needed. IDPs also stressed the need to expedite the installation of water connections in the permanent shelters, as some units could not be occupied by awardees due to lack of basic utilities.

3. **Sustainable livelihood** – IDPs requested duty-bearers to improve the availability of livelihood trainings and alternative education programs, in cooperation with agencies such as the Technical Education and Skills Development Authority (TESDA).

4. **Safety and security** – The CSWDO has confirmed that camp managers in the transitory sites will no longer be reinstated, following the end of their contractual engagement. Other measures to improve safety in the sites have been recommended by the IDPs, including the observance of curfew hours for minors (in both the transitory sites and the permanent shelter sites), along with increased police visibility to deter security risks. The lack of electricity connections was also raised, which links to other security concerns in the area. Installation of child- and women-friendly spaces or community recreation facilities in the resettlement sites was also suggested.

### MARAWI DISPLACEMENT

**Displaced since 23 May 2017**

As of December 31, 2019, 422 families (approx. 2,110 individuals) are staying in 9 evacuation centers in Marawi City and other municipalities of Lanao del Sur, while 2,911 families (approx. 14,555 individuals) are in 14 transitory shelter sites (18 are the target # of TS by government, 4 are still under construction). 97 families (approx. 485 individuals) are staying in transitory shelters built on-site, and 146 families (approx. 730 individuals) are in 2 permanent shelter sites.

On 24 October, Task Force Bangon Marawi (TFBM) presented their figures with regard to IDPs staying in evacuation centers (EC) and transitory sites (TS) around Marawi and Saguiaran. TFBM only counts Sarimanok Site 2 as the only remaining government-recognized EC for those displaced by the Marawi Siege, and considers all other centers as “community-based centers” (CBC).

TFBM has directed the Ministry of Social Services-BARMM to conduct a validation exercise in community-based evacuation centers (CBEC) and update confirm the latest IDP figures, regardless of whether said IDPs are renters or homeowners.

Transitory sites for Marawi IDPs, face severe protection issues, some of which are traced to the lack of camp management structures within the sites. In both the Sagonsongan and Boganga transitory sites, the most urgent concern is the desludging of full septic tanks, as some septic tanks are already draining into the main drainage system. Compounding the issue is the insufficient amount of water supply.

### Displaced families who are awaiting their transfer to transitory shelters have raised the following issues and concerns:

**Tugaya, Lanao del Sur:** A total of seven (7) families displaced by the Marawi conflict finally moved in to the shelter units constructed by Catholic Relief Services (CRS), resulting from UNHCR’s referral.

Two (2) families coming from Tugaya are transferring to shelters located in Barangay Cadayonan, Marawi City, built on land owned by relatives of the IDPs. Prior to the transfer, the IDPs have been moving from one site to the other, first to Iligan City, then to Madamba, Lanao del Sur, and then to Tugaya, also in Lanao del Sur, where UNHCR Field Staff began coordinating with them and referred them to CRS.
Pantaon, Marawi City: Five (5) families were likewise transferred to the CRS transitory shelter site in Pantaon, Marawi City from Malabang, Lanao del Sur, where they stayed in a madrasah for almost two years. As part of the preparations for the opening of the Madrasah, the IDPs were asked to vacate the site, and had to transfer to Barangay Cadayonan while waiting for the construction of the CRS shelters. One family still goes back regularly to Barangay Cadayonan to attend to a sari-sari store, the income from which provides for their needs. One family shares the shelter unit with relatives who are also IDPs.

Saguiaran, Lanao del Sur and Rorogagus, Marawi City: A total of 54 IDP families in the Sarimanok Tent City site-2 were transferred to the government’s Transitory Shelter in Pindolanan, Saguiaran, Lanao del Sur in December 2019. Meanwhile, a total of 94 IDP families from Sarimanok Tent City Site 2 were transferred in Rorogagus Transitional Shelters on 14 December 2019. The need for shelter is topmost need identified for the remaining IDPs in site 2, however there is no assurance of relocation for the remaining 81 IDP families in the said tent city.

Sagonsongan, Marawi City: Long raised concerns of the IDPs in the Sagonsongan TS about transportation costs is partially addressed by rerouting vehicles, including passenger jeepneys going to and from Marawi, to pass by the Sagonsongan diversion road. Issues raised about the open drainage canals is also now being addressed. The open drainage canal in Area 4 is now mostly covered while work is ongoing in Area 1.

IDPs in Area 6 have received notice of electrical disconnection. Although there is no actual connection yet, this is making the IDPs worry as they have no enough earnings to pay the electric bill. Full septic tank in the said area remains an issue.

Insufficient water supply has been reported in Area 2, Area 4 and Area 5. IDPs have access to water on an average of twice a week, with maximum duration of 15 minutes each.

There are shelter units that cater to more than 2 families (or more than 10 individuals) that makes their shelter crowded. This may pose privacy issues, especially for women and children.

KEY CHALLENGES FOR MARAWI IDPs

1. **Shelter:** As of 31 July, 967 families (4 835 individuals) are staying in evacuation camps, using family tents provided by the DSWD. These emergency dwelling materials, meant only to last for 6 months, do not provide adequate protection from heat and extreme temperatures.

2. **Water, sanitation, and hygiene (WASH) – Transitory Sites**, especially those that were occupied first, now face water and sanitation issues. In Sarimanok Tent City and Sagonsongan, septic tanks are already full and in need of desludging. Water in the said locations is supplied by trucks provided by NGOs, one of which would cease their intervention by end of June 2019. Maintenance of latrines is likewise a challenge. Some latrines have been closed due to the lack of water supply. The WASH cluster has recently deactivated its operations and has turned over its role to the City Government of Marawi.

3. **Information:** While IDPs receive information on schedules of distribution of assistance, profiling activities and the like, there is a need to better communicate information on government plans regarding the rehabilitation of the most-affected areas and how the IDPs’ properties will be affected. IDPs, especially those in remote areas, are not able to participate in consultations or information sessions that are usually organized and conducted in Marawi City.

4. **Food:** The last government distribution of food packs was in December 2018. While there is a move towards more developmental forms of assistance, IDPs still struggle in their everyday food and nutrition needs.

5. **Sustainable livelihood:** While IDPs have received training, livelihood items and cash grants meant to serve as startup capital for small businesses, these have not been enough to adequately sustain a family. In some instances, cash grants are used either to quickly pay creditors or are consumed for the family’s everyday needs.
**SULU PROVINCE**

Displaced since September 2017

Out of the more than 526 families (approximately 2,630 individuals) that were displaced in 2017, 21 are yet to return to their communities, while those who managed to return have been repeatedly displaced in 2017 and 2018. They are currently in need of sustainable durable solutions. The displaced families have built makeshift shelters but are still hoping to return to their habitual residences, based on protection monitoring done by partners. Among the needs expressed by the IDPs are livelihood support; food assistance; water, hygiene, and sanitation facilities; and shelter assistance.

About 699 families (approximately 2,949 individuals) are still displaced in Patikul municipality since January 2019, due to the continuous operations by the AFP against the ASG, following the president’s declaration of an all-out-war against the terror group. Most of the displaced families sought temporary shelter among their relatives, while some opted to stay in evacuation centers. Local authorities said that there are no indications of possible return, and there is a need for aid augmentation given the humanitarian needs of IDPs, especially those who are staying in evacuation centers.

**Patikul:** On 17 May, more than 284 families (approximately 1,470 individuals) from Barangay Kabbon Takas in Patikul municipality were displaced as a result of armed confrontation between the AFP and the Abu Sayyaf Group (ASG). The displacement in this community has been recurring since February 2019 due to the continuous military operations. Neither the AFP nor the municipal local government units (LGUs) have allowed civilians to return to their places of origin due to the volatile situation. Municipal and barangay officials have said that as long as the ASG is present in the barangay, residents will not be allowed to return.

**DISPLACEMENT DUE TO TROPICAL STORM VINTA**

Displaced since December 2017

While most of the families in Lanao del Sur and Lanao del Norte who were displaced by TS Vinta (International Name: Tembin) in December 2017 have already returned to their places of origin, there are ten (10) families in Munai, Lanao del Norte that were not able to reconstruct their houses and are currently staying in government or community structures within their places of origin. These families are among those whose houses were totally washed out by TS Vinta.

Out of these ten families, there are three families in Old Poblacion staying separately in the Barangay Health Center, PAMANA rice mill, and in a makeshift room near the solar dryer. Three families in Matampay are occupying two classrooms in the primary school.

**KEY CHALLENGES FOR VINTA IDPs**

1. **Shelter:** IDPs who have been living in dilapidated tents for more than a year have identified shelter as their most pressing need. Tents previously provided to IDPs are now leaking when it rains, aside from having poor ventilation which causes it to trap heat during sunny days. This has allegedly caused IDPs to become sick, especially the children.

   Construction of shelters is ongoing; however, the date of completion and eventual handover of these shelters is still unknown. According to the MSWDO, there has been a challenge regarding the budget needed for the approved design of the concrete shelters. Also, compounding the delay is the bidding and procurement process. As of date, 71 houses have been completed out of the projected 120 houses. The shelter assistance is supported by the Philippine Red Cross, municipal LGU of Tubod, DSWD, and provincial LGU of Lanao del Norte.

2. **Health:** IDPs claim that their living conditions inside the ECs is compromising their health. Common illnesses are colds and cough, especially among children. One of the older IDPs suffers from pneumonia, which they have attributed to the vulnerable situation in the EC.
Davao region: Around 149 families (679 individuals) are still taking shelter in the Haran Compound of the United Church of Christ in the Philippines (UCCP) in Davao City. Some of these IDPs have been protractedly displaced since June 2018, while many have been displaced since 2017 and have been unable to return due to the volatile security situation in their communities. These IDPs are indigenous peoples (IPs), coming from remote villages in the municipalities of Kapalong and Talaingod, Davao del Norte province, and Compostela Valley province in Region 11.

In March, around 14 families (approximately 50 individuals) were displaced from municipality of Kapalong, Davao Del Norte. These families are members of Indigenous communities in the boundaries of Kapalong and San Fernando, Bukidnon. They fled due to armed encounter between AFP and NPA in their community. They opted to flee to avoid being caught in the crossfire.

Misamis Oriental: Fifty (50) families (242 individuals) have been displaced from Sitio Camansi, Barangay Banglay in Lagonglong, Misamis Oriental since May 2018, due to clashes between the military and the NPA. They are indigenous Higaonon who fled their home in fear of being caught in the crossfire as violence escalated in the area. They relocated to the provincial capitol grounds in Cagayan de Oro City, more than 50 kilometers away. They were able to build makeshift shelters in the public park but government authorities said these were not makeshift structures, which has caused some issues in the evacuation site.

Thirty IDP families who remained in the evacuation site situated at the Provincial Capitol grounds were forcibly evicted last 18 June 2019. At the order of the provincial government, their temporary shelters were demolished due to the IDP's alleged non-compliance with agreements in an earlier dialogue.

The temporary shelters, which were initially made of tarpaulins and light materials, had recently undergone repairs and renovations by the IDPs due to changing weather conditions. These improvements were done with the permission from the provincial government, which had also allowed them to stay at the Capitol grounds. However, said improvements were done with bamboo, coconut lumber, and canvas, which prompted the provincial government to consider these shelters as semi-permanent structures.

With nothing aside from their clothes and some personal possessions, the IDPs sought temporary shelter in a nearby church of the United Church of Christ in the Philippines (UCCP). Their shelter materials, kitchen sets, beddings and other personal belongings were allegedly transported to the Municipality of Lagonglong (place of origin) by a dump truck prepared by the provincial LGU.

UNHCR and its Protection partners are conducting further monitoring and verification of the incident, and will seek to meet with local authorities to discuss the situation.

Agusan del Norte: Fifty (42) families (190 individuals) have been protractedly displaced since September 2018 due to an armed encounter between the AFP and NPA. The armed conflict and displacement was triggered by the killing of a Lumad farmer who was shot dead by alleged elements of the Philippine Army in Sitio Bulak, Barangay Lower Olave in Buenavista, Agusan del Norte.

These IP communities are affected by the complex dynamics of conflict among different IP groups, who are allegedly co-opted by either the AFP or the NPA. This pattern is also linked to issues of control over their ancestral lands, which are often resource-rich and thus frequently targeted for acquisition or utilization by extractive industries such as mining and logging.

Bukidnon: 1,080 individuals are currently displaced in the province, 722 of whom have been displaced in Barangay Kawayan since November 2018. Some are staying at Sitio Spring, Barangay Kawayan in San Fernando municipality, while others are staying at the evacuation center in the Provincial Grounds, Malaybalay City.

MINDANAO Displacement Dashboard - December 2019

**KEY CHALLENGES**

1. **Human rights violations** – Displacement in the IP areas of Eastern and Northeastern Mindanao is frequently triggered or accompanied by killings of community leaders and attacks on learning facilities. These communities’ strong advocacy for the protection of their rights to their ancestral domain has led to them being labeled as insurgents or NPA sympathizers.

2. **Access to humanitarian assistance** – In most cases of internal displacement in IP areas, particularly those affecting remote indigenous villages, little to no assistance reaches the IDPs. In some instances, their preemptive evacuation due to military presence in their communities is not recognized by authorities as a basis for their registration as IDPs nor as a basis for their entitlement to aid. Local civil society groups, and even humanitarian organizations, seeking to provide support also run the risk of getting tagged as rebel supporters. With this highly politicized context, the humanitarian community faces a major challenge in drawing attention to urgent and legitimate humanitarian needs.

3. **Durable solutions** – Recurring cycles of displacement are often observed in many indigenous communities with a strong history of resisting military presence or incursion of private interests in their ancestral lands. While displacement tends to be short-term and sporadic as compared to other areas of Mindanao, vulnerability is heightened with each incident of evacuation. This recurring pattern places these fragile communities at grave risk of further violations.

**COTABATO CITY**

On 21 January 2019, residents of Barangay Tamontaka 2, Cotabato City were forced to flee their homes, due to threats they allegedly received after campaigning and voting in favour of Cotabato City’s inclusion in the BARMM during the plebiscite on the Bangsamoro Organic Law. 61 families (approximately 239 individuals) sought refuge in Barangay Makir, in the adjoining municipality of Datu Odin Sinsuat, Maguindanao province. An unconfirmed number of families also reportedly took temporary shelter in other towns. The education of their children has been disrupted as a result of the displacement. ARMM-HEART distributed food packs to the IDPs and facilitated the provision of core relief items from UNHCR, in coordination with the local government of the host community. On 16 February, most of the IDPs voluntarily moved to Barangay Simuay in Sultan Kudarat municipality, Maguindanao, where they were hosted in Camp Darapanan of the Moro Islamic Liberation Front (MILF) while efforts to settle the dispute are ongoing.

An undetermined number of families also moved to their relatives’ houses in different locations. Meanwhile, 14 families that chose to stay at the displacement site in Barangay Makir were able to return to their habitual residences on 14 March, with assistance from the local officials of the host barangay and the AFP.

**LANAO DEL SUR DISPLACEMENT**

(Displaced since January 2019)

Twenty (20) families remain displaced out of 106 families that fled their communities last 24 January 2019, due to a firefight in Sito Dubai of Brgy. Mayaman of Marogong municipality, between the AFP and armed men believed to be remaining members of an ISIS-inspired group.
The conflict has resulted in casualties among the military and its targets, and families that are still displaced fear another armed encounter. IDPs continue to go back and forth between their houses and farms in the daytime to check on their properties and livelihood. They are currently staying in Lumbaca-Unayan municipality.

Meanwhile, there were earlier reports of persons displaced from Barangays Sumalindao and Malalis in Sultan Dumalondong municipality. The artillery of the AFP was set up in Barangay Bacayawan, from which they launched their shelling towards Marogong, and IDPs feared for their lives as the shelling passed over their area. Residents of Brgy. Bacayawan likewise fled the area due to the disruption to their everyday life.

According to the MDRRMO of Marogong, IDPs have already returned to their communities, save for 20 families who were displaced to nearby Lumbaca-Unayan municipality and are still unable to return.

**Maguindanao**
(Displaced since March 2019)

About 130 families (650 individuals) that were displaced from Barangay Tenonggos in Datu Odin Sinsuat municipality on March 2019 remain displaced and hesitant to return, unless they receive a government-issued document that says they can safely return to their place of origin. They are also awaiting the schedule of a dialogue that the local government unit has committed to organize. NGO partner Assistance and Cooperation for Community Resilience and Development, Inc. (ACCORD), has provided food and non-food items to the IDPs. The IDPs fled their community following the killing of a Teduray leader. This caused fear among the residents of possible retaliation and/or escalation of the incident. Most of them are farmers whose livelihood activities have been disrupted both by the displacement and by the dry spell (“El Niño” phenomenon).

**Basilan**

On 11 April 2019, about 60 families (200 individuals) were displaced as the ASG allegedly ambushed and killed two (2) members of a paramilitary group also known as the Citizen Auxiliary Force Geographical Unit (CAFGU) patrolling in the village. AFP deployed a troops but they only found the cadavers. Subsequently, the AFP deployed troops to conduct regular patrols in the barangay.

On 17 May, some 175 families (approximately 875 individuals) from Sumisip, Basilan pre-emptively evacuated to their relatives due to a series of arson incidents and the killing of a civilian, which is believed to be an act of retaliation by relatives of the slayed members of Citizen Auxiliary Force Geographical Unit (CAFGU) in April 2019.

KEY DISPLACEMENT FIGURES (2012-2019)

484,443 currently displaced individuals since 2012

140K individuals displaced in December
215K individuals displaced for more than 30 days
130K individuals displaced for more than 180 days

CAUSES OF DISPLACEMENT

IN THE COURSE OF 2019

DISPLACEMENT FROM JANUARY TO DECEMBER 2019

701,974 Total number of individuals who have been displaced in 2019
340,769 individuals who have returned (49%)
361,205 individuals who are still displaced (51%)

CAUSES OF DISPLACEMENT PER PROVINCE

TOTAL: 701,974
AFTER 2 AND A HALF YEARS, MARTIAL LAW ENDS IN MINDANAO. The fourth iteration of martial law in Mindanao lapsed at 11:59 pm Tuesday, December 31, seen to end two and a half years of heightened military tension on the country’s southern main island.

"As martial law expires at 11:59 tonight, we are confident of an improved security climate in Mindanao that will work for the benefit of fellow Filipinos," military spokesman Brigadier General Edgard Arevalo said in a statement.

"Specifically, where ML was an issue, it is expected to boost economic activities due to added investors’ confidence," he added.

Still, Arevalo urged local governments and communities in Mindanao to "press on and build from the gains of [martial law] to maintain the strong security posture now in place."

A recent survey of private pollster Social Weather Stations revealed that 65% of Filipinos wanted martial law in Mindanao to end on December 31.

22 WOUNDED IN BLASTS IN COTABATO, MAGUINDANAO. At least 22 were wounded in several blasts which rocked Cotabato City and 2 other towns in the provinces of Cotabato and Maguindanao province Sunday night.

A grenade exploded at 6 p.m. on the corner of Sinsuat and Quezon Avenues near the Immaculate Conception Cathedral in Cotabato City. At least 12 were wounded in the grenade blast, the police said. Among those who hurt in the blasts were 8 soldiers conducting patrols in the area.

An improvised explosive device detonated nearby a few minutes later. A passerby was slightly wounded in the second explosion.

Meanwhile, 6 others were wounded in 2 blasts in the town of Libungan, Cotabato province the police said.

Two others were wounded in another blast in the town of Upi, Maguindanao. Local police said another bomb was thrown into a police station but did not explode.

BTA COMMITTEE ON MARAWI CITY TO HOLD PUBLIC HEARINGS ON REHABILITATION. The Bangsamoro Transition Authority’s Special Committee on Marawi will hold a series of public hearings starting January to put together a report intended to help improve the slow implementation of the rehabilitation plan for the city that was devastated in 2017.

At the House of Representatives, two resolutions have been filed calling for an inquiry in aid of legislation on the rehabilitation process status as well as the disbursement of funds. These are House Resolutions 377 and 470 filed by Representatives Lucy Marie Torres-Gomez (Leyte 4th District), Mujiv S. Hataman (Basilan) and Amihilda J. Sangcopan (Anak Mindanao Partylist).
The Guiding Principles on Internal Displacement note that “internally displaced persons are persons or groups of persons who have been forced or obliged to flee or to leave their homes or places of habitual residence, in particular as a result of or in order to avoid the effects of armed conflict, situations of generalized violence, violations of human rights or natural or human-made disasters, and who have not crossed an internationally recognized State border.”

A durable solution is achieved when IDPs no longer have outstanding protection or other humanitarian needs arising from their displacement. Durable solutions can be in the form of (a) return, (b) local integration or (c) resettlement (to another area). The exercise of any of these options must be (1) voluntary in (2) safety and (3) dignity for a durable solution to be attained.

**CURRENT NUMBER OF IDPS IN NEED OF A DURABLE SOLUTION**

Breakdown of displaced individuals by region

- **130K** Group A (displaced in December)
- **215K** Group B (displaced for more than 30 days)
- **140K** Group C (displaced for more than 180 days)

**CAUSES OF DISPLACEMENT**

- **60%** Armed Conflict
- **15%** Natural Disaster
- **10%** Crime / Violence
- **5%** Clan Feud
- **25%** Other

**DISPLACEMENT IN DECEMBER 2019**

- **139,539** Total recorded displacement in December
- **0** Number of persons who have returned
- **139,539** IDPs in December in need of a durable solution
